

BOHON Orange Ceramic Mushroom Table Lamp

Quick setup, use and care guide · LightDecorHub

Product details

Model/part number: C-Mushroom-O. Supplier data identifies a ceramic orange shade, wood base, E12 LED bulb, rocker switch, corded power and approximate dimensions of 8 × 8 × 9 inches. Listed voltage is 120 V. Confirm the label on your actual lamp before use.

Setup and bulb replacement

- Place the lamp on a stable, level, dry indoor surface.
- Inspect the cord, plug, shade and base for damage before connecting power.
- Unplug the lamp and let the bulb cool before removing the shade or changing the bulb.
- Use only an E12 bulb within the maximum wattage on the product label. The listing names a 5 W LED bulb; confirm the physical label.
- Secure the shade before reconnecting power. Do not operate with damaged parts or exposed electrical components.

Operation and safety

- Use the rocker switch on the cord to turn the lamp on and off. Dimming is not confirmed.
- Confirm your outlet matches the lamp label. Supplier data lists 120 V; do not use an incompatible supply.
- Keep the lamp indoors, away from water and flammable materials. It is not listed as waterproof.
- Keep the cord out of walkways and pinch points. Stop using the lamp if the cord or plug is damaged.

Cleaning

Switch off and unplug the lamp first. Wipe the ceramic shade and wood base with a soft, dry or slightly damp cloth. Never immerse the lamp in water or use abrasive cleaners; let it dry fully before reconnecting.

Specification note

Supplier materials conflict on colour temperature (2700 K versus 3000 K), so this guide does not promise an exact Kelvin rating. Follow the markings and instructions supplied with your physical product. This quick guide does not replace the product label or manufacturer instructions.
