BSOD White Striped Glass Mushroom Table Lamp

Quick setup, use and care guide

PRODUCT REFERENCE

ASIN B093FNYCHQ. Supplier documents show model references M-1970S-SW and Bsod-SW-Lamps007.

BEFORE FIRST USE

The listing states 110 V AC and an E12 LED bulb. Check the product label, plug type and electrical compatibility before use.

SETUP

1. Place the lamp on a stable, level, dry indoor surface.
2. Unplug before installing or replacing the E12 bulb.
3. Fit a compatible E12 LED bulb securely; do not overtighten.
4. Use the inline push button to switch the lamp on or off.

LIGHT OUTPUT

Supplier documentation lists warm-white 2700 K light and 600 lumens. Standard operation is on/off and non-dimmable.

CLEANING AND CARE

Unplug the lamp and let the bulb cool before cleaning. Wipe glass with a soft, dry cloth. Avoid liquids, solvents and abrasive cleaners. Indoor use only.

TROUBLESHOOTING

If the lamp does not turn on, check the outlet and inline switch. Unplug it and check that the E12 bulb is seated correctly. Do not handle electrical components when plugged in.

This quick guide summarizes supplier-listed information and does not replace instructions shipped with the product. Verify the label and specifications on the product.
