

ORANGE GLASS MUSHROOM TABLE LAMP

LightDecorHub Quick Setup & Care Guide • Glivpny model HB003 • ASIN B0CX144DHK

Important: This is a LightDecorHub-created quick guide, not the manufacturer's original manual. Seller pages conflict on the exact power connection. Check the label on your lamp and supplied adapter before connecting power.

Specifications

Shade / base	Orange glass shade; polished metal base
Dimensions / weight	Approx. 7.87 × 7.87 × 11.02 in (20 × 20 × 28 cm); 0.9 lb listed
Bulb	G9 LED; bulb listed as included; up to 9 W listed
Light / control	180 lumens listed; stepless dimming listed
Power	Some sellers list USB / 5 V DC; verify the actual adapter and product label
Use	Indoor only; not waterproof
UPC / GTIN	Not verified from available product-specific sources

Setup and safe use

- Unpack carefully and inspect the glass, base, cord, dimmer, bulb and adapter for damage.
- Place upright on a stable, level, dry indoor surface. Keep away from water and high humidity.
- Read the lamp label and adapter rating before connecting power. Do not use an incompatible power supply.
- Use only a compatible G9 LED bulb within the stated maximum wattage. Disconnect power and let the bulb cool before replacing it.
- Adjust the dimmer gently and follow any instructions supplied with the actual lamp.

Cleaning and troubleshooting

- Switch off and disconnect power before cleaning. Wipe glass and metal with a soft, dry cloth; avoid abrasive cleaners and excess moisture.
- If the lamp does not turn on, disconnect power and check the adapter and connection against the product label. After unplugging and cooling, check that the G9 bulb is seated correctly.
- If dimming fails, flickers, or the lamp becomes unusually hot, stop using it and contact the seller. Do not open or modify electrical parts.
- Do not use the lamp if the glass is cracked or the cord, plug, dimmer or adapter is damaged.

Specification note: Product-specific seller sources identify the orange shade, metal base, G9 base, model HB003 and dimensions. Power details are inconsistent across listings, so the actual lamp label and supplied adapter take priority. No UPC/GTIN was verified.
